Response to Election/Restriction

1. Applicant's election without traverse of Invention I, Claims 1 and 2 in Paper No. 5 is acknowledged.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Hara '368.
4. Hara discloses a resistance member (1a) having a resistance value determined for each character (bar code discussed in column 2, lines 55-65), the resistance value of the resistance member is measured by causing the resistance member to come into contact with an external terminal (reader unit 3) as recited in claims 1 and 2.
